Introducing results-focused, value-driven legal services

With more than 400 staff across six regional offices, as well as serviced offices in London, we are well-placed to help you, whatever your business need. We provide legal support to clients throughout the West Midlands, the South West, the M4 corridor and further afield, including internationally.

Our success is based on the quality of the services we provide – quality that has been paramount since 1796 - and we never compromise this. It shows in everything we do, and our Lexcel accreditation is testament to the fact that we deliver excellent client care and high-quality service.

Because we know that they are the key to that quality, we invest in our staff; we recruit the best, promote our talent and keep our teams motivated through training and development, which has led to our Investors in People (IIP) status. We even have a dedicated team which organises regular events and rewards for staff – if we look after our staff, they will look after you.

Local advice, national reach

What sets us apart from other firms is our ability to draw together a team of specialists from within the firm to support your specific needs.

Obviously our advice in areas of general business law is top-quality, but we add value to this by bringing in specialists from our own sectors – they focus on the key issues which make your situation unique, and together we find practical and commercial solutions. With clients throughout the UK, as well as international clients, many of our sectors have a truly global reach.

We have established close links with bespoke lenders and specialist advisors to ensure that you receive advice from professionals who understand your commercial sector. We are therefore well placed to be among the first to hear of current opportunities within your sector and to keep you in touch with developments

Regulation now touches every sector to some degree and we are familiar with how regulators work, so that we can liaise with them on your behalf when necessary.

We can also provide specialist advice in our key sectors:

- Agriculture and rural affairs, where a wide range of legal issues combine in particular challenges
- Construction and engineering, whose complex projects need our comprehensive and commercial solutions
- Defence, security and the forces, where we support both serving members of the armed forces and the highly specialised businesses often established by ex-service personnel
- Education, where we are recognised nationally as a leader in the field
- Health and social care, where we work with clients from owner-managed care homes to national social care providers
