

Energy and Utilities team

The need for energy, water and telecommunication is constant. Our team of expert energy and utilities lawyers have advised various stakeholders around the world in relation to energy, water and telecoms so that these crucial, everyday utilities can be supplied to where they need to be. From oil and gas to telecoms, water and renewable or traditional energy, our lawyers make sure your contracts are in good shape, funding can be secured, and the right advice is on-hand when dealing with regulators.
